Control Panel Accessories

Keeping Power in your Control

since 1976

About us

Veeco is one of India's Well Recognized name in the switchgear industry today. The company made a modest beginning in the year 1976, at Mohali near Chandigarh, a premier Industrial town of Punjab.

Over the years, we have developed an elaborate and reliable infrastructure to maintain the quality and supply line to the best satisfaction of the users of the Veeco Products.

Veeco offers the widest range of Control gears and panel accessories covering the varied requirements of the panel builders and users.

Veeco products are easy in operation and especially designed to withstand harsh operational conditions. All Veeco products conform to BIS standards and are available all over the country through a well established dealers network.

At times, we have been critical of our own product since we believe that there is always a room for improvement and customer needs change with time. We constantly toil on innovations and research for newer and advanced technologies. The eager-growing faith of our customers and increasing demand has inspired us be on the path of consistent development and continuous expansion.

The untiring spirit, expert skills and professional approach of the Veeco team has enabled us to place "Veeco" amongst the counted ones. The essence of its success lies in the expertise of a fine team of professionals, strong relationship with associates, the ability to adapt quickly, efficiently and ably supported with the vision to think ahead. Our Vision is "To be a globally recognized corporation that provides best electrical solutions, delivered by best-in-class people." Our Mission is to achieve our vision through fairness, business ethics, global reach, technological expertise, building long term relationships with all our associates, customers, partners, and employees.
